## Professional Summary

---

I am Full Stack Software Engineer from Ethiopia with experience in web application development, backend systems, frontend technologies, databases, and cloud deployment. Committed to delivering efficient, scalable, and high-quality software solutions.

## Education

---

**Haramaya University**

**2021-2025**

Bachelor of Science in Computer Science

**Relevant Coursework:** Algorithm Design And Data Structures, Java, Python, Operating Systems, Computer Architecture, Object-Oriented Programming, Databases,

## Technical Skills

- 
- Frontend: React, TypeScript, Bootstrap, TailwindCSS, JavaScript (ES6+), Next.js
  - Backend: Django, Node.js, Express, PHP/Laravel, REST API
  - Database: MySQL, PostgreSQL, MongoDB
  - Devops & Tools : Cloud Server/oracle cloud, Docker, CI/CD Pipelines,Plesk/Apache
  - Version Control: Git, GitHub

## Work Experience

---

### **Intern — Center for Digital Health Implementation Science (CDHIS)**

*Project Management System (PMS) | 2024*

- Collaborated on developing a comprehensive web-based Project Management System to streamline task assignment and team tracking.
- Implemented frontend components using React and TailwindCSS for a clean and responsive interface.
- Assisted in backend configuration with Django and API integration for user authentication and data handling.
- Contributed to system testing, feature validation, and documentation of user requirements.

### **Full-Stack Developer — Freelance Projects(June 2025 – Present)**

Delivered full-stack web applications for clients across e-commerce websites. Stack varies per project across PHP/Laravel, Django.

### **Full-Stack Developer — Self-Employes (October 2025 – Present)**

Building the Ethiopian Researcher Analytics Platform — has given me practical experience in full-stack development, API integration, database design, data visualization, and cloud deployment, and developing scalable solutions for real-world users.

## Major Projects

---

### **E-commerce Shoe platform— [E-commerce Shoe Shopping](#)**

Designed and developed a modern, responsive e-commerce interface with intuitive navigation, product browsing, shopping cart functionality, and an optimized user experience across desktop and mobile devices.

### **Task management — [Task Management](#)**

Designed and developed a clean, responsive task management interface with intuitive user flows, task organization features, and a smooth productivity-focused user experience.

#### **Phone LCD Online Store — [msglcd.com](https://msglcd.com)**

Developed a full-featured e-commerce platform for selling phone LCDs and accessories using PHP, Bootstrap, and JavaScript.

Integrated product management, cart and wishlist functionality

#### **Holy Trinity Canberra Orthodox Tewahedo Church Portfolio Website**

[holytrinitycanberra.org.au](https://holytrinitycanberra.org.au)

Designed and built a modern, responsive website to improve community engagement and event management.

Built with React and TailwindCSS, optimized for fast loading and accessibility.

#### **MERN Auth System — [auth](#)**

Full authentication system with JWT, Google OAuth, OTP email verification, and password reset. Production-ready boilerplate.

## Certifications

---

### **Fundamentals of Programming Udacity | 2024**

Learned essential programming concepts, including variables, loops, functions, and data structures, with hands-on coding practice to build a solid foundation in software development.

### Android Developer Fundamentals Udacity | 2024

Acquired hands-on experience in building Android applications using Java and Kotlin, understanding Android Studio, layouts, user interface design, and app lifecycle management.

### Data Analysis Fundamentals Udacity | 2024

Developed practical skills in collecting, cleaning, and analyzing data using tools like Excel, Python, and SQL. Learned to visualize data, identify trends, and generate actionable insights for informed decision-making.

### Artificial Intelligence Fundamentals Udacity | 2025

Gained practical knowledge of core AI concepts including intelligent agents, search algorithms, and basic machine learning techniques.

### Introduction to Cybersecurity Simplilearn SkillUp | 2025

Gained foundational knowledge of cybersecurity principles, including threat identification, network security, risk management, and basic protective measures to safeguard digital systems and data.
